- Developed a real estate marketplace web app using Go, Svelte, Go-Fiber, ClickHouse
- Contributed to the open-source frontend framework Svelte-MPA. Built with NodeJS, esbuild, svelte-compiler, and used for various company projects.
- Built an open-source accounting software, with Go, Go-Fiber, Svelte.
- Maintained and improved a water sensor monitoring web app, rewriting frontend from jQuery to Svelte.

Web Specialist

(May 2024 - Sep 2024)

SalonKita Indonesia (Internship)

- Design system infrastructure for 4 apps: Backend API, Back-office portal admin, Main frontend web, Creativehub portal.
- Built backend API, implements rate-limiting, pagination, multi-role user, authentication, image resizing/compressing. Built with Go, Go-Fiber, Redis, PostgreSQL, Docker.
- Built back-office web app, for manage contents, users, products, etc. Implements protected routes, user-friendly UI, and charts, with Sveltekit, TypeScript, Nodejs, TailwindCSS.
- Design database schema, with PostgreSQL.
- Manage server and setup CI/CD scripts for deployment to 4 apps, with Ubuntu Server, NGINX, Docker.

Skills

- Programming Languages: **Go, JavaScript, HTML, CSS, SQL, Bash Script**
- Libraries / Frameworks: **Svelte, TailwindCSS, Go-Fiber**
- Version Control: **Git, GitHub, GitLab**
- DevOps: **Github Action, Linux Server, Docker, NGINX**
- Database: **MySQL, PostgreSQL, Redis**

Education

SMKN 1 Narmada

(2019 - 2022)

High School Diploma in Computer and Network Engineering

Universitas Qamarul Huda Badaruddin

(2022 - present)

Computer Science major | GPA 3.56 / 4.0
